

Ocean View Terrace

Owner Testimonials

“We are local Nanaimo builders, and it has been a pleasure to construct new homes within this community. The land purchases went smoothly and all required information from the developer was prepared for us. Quite often it is not that simple.”

Joel McDaniel

“My wife and I purchased our lot to build our family home on. The developer assured us that in the future they would improve our view corridor with a tree management plan.

They kept true to their word. Our views are incredible!”

Bruce Munro

“We have been watching this community develop over the past year and have come to realize there isn’t another property within Nanaimo that offers such great value. We have since made the decision to purchase our new home.”

Rene Jenson

“We purchased our lot in phase one and choose one of the community’s builders to construct our new home. The process has been a great experience. The lot was simple to build on and the builder was professional and helpful from the beginning to the end.”
